♀ **First name and family name** _____ ♂ **First name and family name** _____

1	Insemination program – max. 3 cycles (non refundable in case of full term pregnancy within the first 2 cycles nor in case of interruption of the treatment program)	€ 2.850,00
2	IVF Lite program – max. 3 cycles to be completed within 1 year (non refundable in case of full term pregnancy within the first 2 cycles)	€ 6.800,00
3	Assisted conception cycle (the cost of the ET is not deductible in case the transfer cannot be performed)	€ 4.700,00
	Assisted conception cycle – No ET for fertilization failure 0-1 oocyte retrieved	€ 2.500,00
	Failed oocyte retrieval –up to 3 ultrasound monitoring sessions (costs for hormonal assays must be added)	€ 100,00
	Failed oocyte retrieval – more than 3 ultrasound monitoring sessions (costs for hormonal assays must be added)	€ 300,00
4	Assisted conception cycle including embryo biopsy for aneuploidy screening (PGT-A) (the cost of the ET is not deductible in case the transfer cannot be performed)	€ 6.500,00
	Assisted conception cycle including embryo biopsy for Robertsonian translocations (PGT-SR) (the cost of the ET is not deductible in case the transfer cannot be performed)	€ 7.000,00
	Assisted conception cycle including embryo biopsy for PGT-M (the cost of the ET is not deductible in case the transfer cannot be performed)	€ 6.300,00
	Set up for assisted conception cycle with PGT-M (Procedure required for all PGT-M treatments except in case of Robertsonian translocations)	€ 2.500,00
5	Oocyte retrieval for cryopreservation	€ 2.800,00
	Assisted conception cycle for oocyte/embryo banking	€ 2.800,00
	Transfer of cryopreserved embryos	€ 1.800,00
	Assisted conception cycle from cryopreserved oocytes	€ 2.200,00
	Assisted conception cycle from cryopreserved oocytes including embryo biopsy	€ 3.300,00
6	Preparation for sperm donation treatment	€ 850,00
7	Assisted conception cycle with donor oocytes (Program 7) (of which 850 € to be paid exclusively during the first cycle)	€ 6900,00
8	Assisted conception cycle with donor oocytes (Programs 1-2-3-4) (of which 850 € to be paid exclusively during the first cycle)	€ 3750,00
9	Fine needle aspiration	€ 500,00
	Fine needle aspiration with cryopreservation	€ 800,00
10	Cryopreservation fee 1 January – 31 December	
	Sperm	€ 350
	Oocytes	€ 450

Costs include: Medical staff, laboratory staff, qualified nurses, midwives, psychological counselling on the first day of treatment, hormonal assays during treatment, administrative fees, costs for hospitalization and for admission to the operating theatre.

NB: For Assisted Reproduction cycles, payment must be made on the day after oocyte retrieval.

Embryo transfer must be paid 2 working days before the date of the procedure.

Payment of oocyte donation cycles is divided in 3 tranches to be paid at specific times during the treatment.

Payments by bank transfer must be made 2 working days before the provision of the health service for a better planning of the patients' therapeutic program.
